

## Where do you need to connect your phone for optimal use?

The way you connect your phone depends on how many wall sockets you have.

If you have two or more wall sockets:

If you have only one wall socket, use a splitter:

A phone socket splitter costs about €3 to €10 in most on-line electronic shops and looks like this:

**Note:** your analogue line must be activated with our telephony services whether your hour plan is on this line or not. Please contact customer service if you have any doubt about it.
